Moved to London in 2012 to try to find better job opportunities, and ended up working as a full video editor and video creative, apart from doing some freelance work. Moved back to Spain in 2021 as I received an offer to work for MotoGP™, and didn't hesitate as I have always been a big fan of the sport.

I started working as video editor for the social team and after 4 years I was promoted to Social Media Video Coordinator, managing all the video production for the social media channels of MotoGP™, coordinating the post production with a team of video editors and the production with the filming team on track, also directing some filmings we have through the season.

## 01 Profile
